

# ROAD CONSTRUCTION

## Shenandoah Farms Sanitary District

---

Venus Branch/Drummer Hill

January 10, 2023

### Warren County Public Works Traffic Update

Works has begun on the sub grade stabilization and culvert replacements to prepare for Prime Coat Double Modified Chip Seal on Venus Branch from Spring Lake to Drummer Hill Road, and on Drummer Hill Rd from Venus Branch to begin State Maintenance. The schedule of the Contractor is Monday through Friday from 7a. until 3p. The scope of work does not include any planned road closers on these routes. Traffic will be controlled through a work zone that may include flaggers based on the location. Traffic may be delayed (not to exceed 15 minutes). All advanced warning signs required will be in place during construction activities and removed daily at the end of the day. 2 Advanced Warning Message Boards will be installed during the week of January 9<sup>th</sup>. The decision to add Message Boards was made when the Sanitary District received a complaint on a back up on Drummer Hill. Message Boards will assist the public in using alternate routes during the Construction. This work mentioned is planned to last until mid-March (Weather Permitting).

Respectfully,

Michael D. Coffelt, Deputy Director of Public Works
